Game-Changer for Cold-Weather Drivers

Have you ever driven away with your block heater cord still plugged in? Ever have trouble plugging or unplugging your extension cord at below freezing temperatures? Do you know anyone who has mobility issues?

The VoltSafe magnetic extension cord is a game changer! It eliminates the safety hazards and difficulties caused by standard extension cords. The magnetic force pulls the plug together immediately activating power and then releases just as easily, leaving the plug's entire surface completely safe to touch. No fear of electrocution, no danger of electrical fires and no more driving off with your block heater still plugged in. Say goodbye to the drive of shame!

- App Controlled Timer – Optimize your schedule and save money
- Permanent Magnet – Reliable Quick Connect and Disconnect
- Resilient Protective Cover – Flexible flap automatically snaps back in place
- LED Indicator Light – Indicates when power is flowing
- 10ft Freeze Resistance Flexible Cable
- Corrosion Resistant Contacts – Nickel-plated contacts resistant to oxidation
