Advanced IMMO & Key Programming Bundle

The IM608PROKPA is a comprehensive key and immobilizer programming package of the MaxiIM IM608 Pro 10.1-inch Android touchscreen tablet, XP400Pro key and chip programmer, the wireless JVC1 J2534 pass thru programming device and the Key Programming Adapter kit. The IM608 Pro enables key learning directly through the OBDII port for 85 percent of vehicles in North America. The tablet can read the immobilizer pins and password directly from the vehicle and store this information to use later when learning the newly programmed keys to the vehicle. The IM608 Pro is also an advanced diagnostics tablet featuring AutoVIN and AutoSCAN technology to automatically identify the vehicle and perform an all systems scan. The advanced diagnostics functions of the IM608 Pro include the ability to perform active test, coding and adaptations.
